Dear Eddie,

Thank you for providing a humorous and insightful keynote address at the Atlanta Association of Health Underwriters (AAHU) Benefits Forum a couple of weeks ago.

Your presentation on "*the Success Essentials*" was engaging, entertaining, and your interactive style was very appropriate for our theme; "**Where Are We Now?**", and as the final speaker of the day. Your experience in the insurance industry made your presentation more credible to the audience

I appreciate how you were able to weave comments and critical points made by the speaker just before you, into your points on how we can handle all of the changes within our healthcare industry..

Thanks for your passion, energy, and enthusiasm!

Sincerely,

A Schiebel
President, AAHU
